## Real-Time Patient Tracking & Lobby Management

Efficiently allocate resources and improve patient satisfaction with real-time monitoring of registration, throughput, and wait times. Automate alerts and messaging to patients, clinicians, porters and family members.

**PATIENT WAIT TIMES  
REDUCED BY 50%**

- ✓ Reduce patient wait times
- ✓ Know where patients are AT ALL TIMES!
- ✓ Real-time messaging keeps family members informed
- ✓ Reduce registration wait times up to 50%
- ✓ Centrally manage multiple sites using real-time dashboards
- ✓ Improve patient satisfaction scores
- ✓ Visibility across the enterprise for all clinicians & associates
- ✓ Real-time communication across all departments
- ✓ Notify porters, clinicians, & staff regarding patient status and needs  
(via pagers and smartphones)
- ✓ Link valet service to discharge process
- ✓ Match patient needs with registrar skills  
(e.g. financial counseling, language, balance owed)
- ✓ Proactively manage staff with real-time alerts
- ✓ Adjust staffing needs and increase staff efficiency
- ✓ Improve throughput and financial performance
