

ActiveXCHANGE

Seamless & Secure Integration with RightFax

ActiveXCHANGE is a cost-effective, secure, easy-to-implement solution that offers fast, compliant, paperless workflows for all your patient information, physician orders, billing documents, and more—including those triggered via fax-based transmissions.

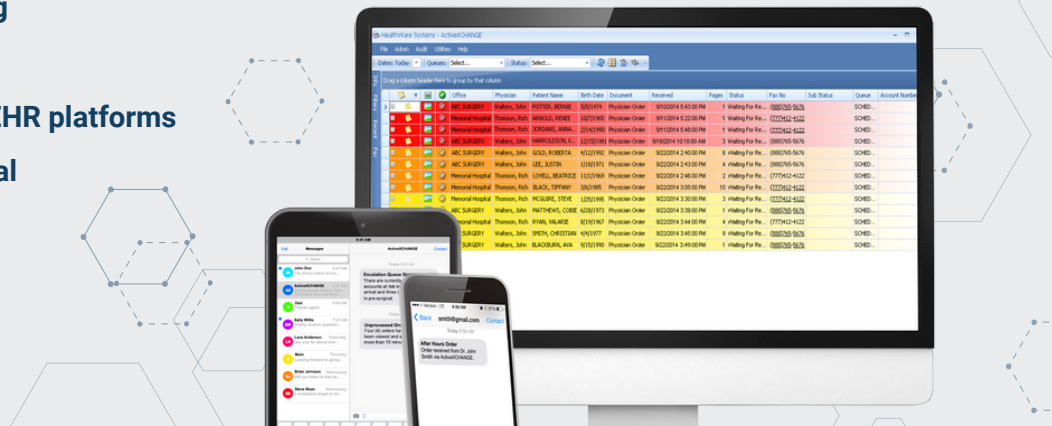

ActiveXCHANGE integrates within any e-fax solution to facilitate a digital workforce for your organization.

Next Generation Document Automation

ActiveXCHANGE does NOT replace your existing e-fax solution. It allows you to maximize your investment with these additional benefits:

- ▶ AI-Based Automated Indexing
- ▶ Automated Routing
- ▶ Direct Integration with EMR/EHR platforms
- ▶ Improved Search and Retrieval
- ▶ Response Automation
- ▶ Workflow Automation
- ▶ Integration with RPA

More than 80% of all information and correspondence received by healthcare providers is still in an unstructured form.

ActiveXCHANGE adds structure to e-fax images and converts them into actionable data.

Enormous Time Savings & Paper Reduction

Streamlined Workflows & Automated Processes

Superior Indexing & Secure Document Management
