

# THE POWER OF E-CONSENTS

## Future-Proof & Modernize Your Processes

### MAKE THE TRANSITION

#### Enhance Your Hospital's Efficiency with Electronic Consents

In today's rapidly evolving healthcare landscape, efficiency is paramount. Embracing electronic consents over traditional paper-based procedures offers numerous advantages that can significantly enhance your hospital's operations, patient care, and financial performance.

### OUR INNOVATIVE SOLUTION

#### Eliminate Pre-Printed Forms & Go Paperless with ActiveFORMS

ActiveFORMS automates form selection, generation, and delivery using robotic process automation (RPA) – removing the guesswork for staff. We replace paperwork with a library of custom-branded, electronic forms that delivers the right documentation instantly and securely. With ActiveFORMS, providers can capture consent electronically, reducing the risk of missing or incomplete documentation.

#### Streamline Workflows & Automate Processes

Remove the administrative burden of printing, signing, scanning, and filing paper consents

Forms automation saves valuable time for both staff and patients

Expedite the consent retrieval process during emergencies, consultations, and procedures with electronic signatures

#### Increase Accuracy & Patient Safety

Barcode automation ensures accurate matching of patients' medical forms with their accounts

Auto-populates patient data on forms, reducing human error from manual entry

Mitigates illegibility issues commonly associated with handwritten forms

#### Minimize Waste & Maximize Savings

Eliminate the cost for manual filing, storage, and retrieval of paper documents

Prevent revenue loss with precise patient data through forms automation

Lower operational expenses by automating patient registration, data entry, and signature capture

#### Enhance Patient Experience & Trust

Patients can conveniently access and complete e-consent forms

Effectively engage patients in the consent process and foster higher levels of satisfaction and trust

Alleviate confusion and ensure that patients make informed decisions about their care

*"The solution is really easy to use for our customers and makes them happy. HealthWare Systems provides really good support on every level. I've never seen a vendor be so responsive so quickly. I give them an A-plus!"*

*"It has become invaluable - the staff can't live without it."*
